456	Advice of Dishonour	Advises the account owner that financial document(s) included in the cash letter have been dishonoured for reasons specified in the advice

### Category 5 – Securities Markets

MT	MT Name	Purpose
500	Instruction to Register	Instructs the registration, deregistration or reregistration of a financial instrument at the registration provider
501	Confirmation of Registration or Modification	Confirms the registration, deregistration or reregistration of a beneficial owner or shareholder with the registration provider
502	Order to Buy or Sell	Instructs the purchase or sale of a given quantity of a specified financial instrument under specified conditions
503	Collateral Claim	Requests new or additional collateral, or the return or recall of collateral
504	Collateral Proposal	Proposes new or additional collateral
505	Collateral Substitution	Proposes or requests the substitution of collateral held

506	Collateral and Exposure Statement	Provides the details of the valuation of both the collateral and the exposure
507	Collateral Status and Processing Advice	Advises the status of a collateral claim, a collateral proposal, or a proposal/request for collateral substitution
508	Intra-Position Advice	Reports on the movement of securities within the holding
509	Trade Status Message	Provides information on the status of a previously executed trade
510	Registration Status and Processing Advice	Advises the status of a registration instruction or modification
513	Client Advice of Execution	Provides brief and early information about a securities deal, e.g., a block trade that is to be allocated before final confirmation
514	Trade Allocation Instruction	Instructs the allocation of a block trade
515	Client Confirmation of Purchase or Sale	Provides a detailed accounting of financial instruments purchased or sold by the Sender on behalf of the Receiver or its client. It may also convey the payment details of the purchase or sale. It may also be sent by, or via an ETC service provider
516	Securities Loan Confirmation	Confirms the details of a securities loan, including collateral arrangements. It may also confirm the details of a partial recall or return of securities previously out on loan
517	Trade Confirmation Affirmation	Positively affirms the details of a previously received confirmation/contract note
518	Market-Side Securities Trade Confirmation	Confirms the details of a trade and where necessary, its settlement to a trading counterparty
519	Modification of Client Details	Instructs the modification of client details at the registration provider
524	Intra-Position Instruction	Instructs the movement of securities within the holding
526	General Securities Lending/Borrowing Message	Requests the borrowing of securities or notifies the

		return or recall of securities previously out on loan. It may also be used to list securities available for lending
527	Triparty Collateral Instruction	Performs a specific action on a collateral management transaction
528	ETC Client-Side Settlement Instruction	Sent by an ETC service provider, it communicates early settlement information to a custodian or clearing agent about a client-side trade
529	ETC Market-Side Settlement Instruction	Sent by ETC service provider, it communicates early settlement information to a custodian or clearing agent about a market-side trade
530	Transaction Processing Command	Requests the modification of a processing indicator or other non-matching information.
535	Statement of Holdings	Reports at a specified time, the quantity and identification of securities and other holdings which the account servicer holds for the account owner
536	Statement of Transactions	Provides details of increases and decreases of holdings which occurred during a specified period
537	Statement of Pending Transaction	Provides details of pending increases and decreases of holdings at a specified time
538	Statement of Intra-Position Advices	Provides details of increases and decreases in securities within the holding during a specified period
540	Receive Free	Instructs a receipt of financial instruments free of payment. It may also be used to request a cancellation or pre-advise an instruction
541	Receive Against Payment	Instructs a receipt of financial instruments against payment. It may also be used to request a cancellation or pre-advise an instruction
542	Deliver Free	Instructs a delivery of financial instruments free of payment. It may also be used to request a cancellation or pre-advise an instruction
543	Deliver Against Payment	Instructs a delivery of financial instruments against payment. It may also be used to request a cancellation

		or pre-advise an instruction
544	Receive Free Confirmation	Confirms a receipt of financial instruments free of payment. It may also be used to cancel or reverse a confirmation
545	Receive Against Payment Confirmation	Confirms a receipt of financial instruments against payment. It may also be used to cancel or reverse a confirmation
546	Deliver Free Confirmation	Confirms a delivery of financial instruments free of payment. It may also be used to cancel or reverse a confirmation
547	Deliver Against Payment Confirmation	Confirms a delivery of financial instruments against payment. It may also be used to cancel or reverse a confirmation
548	Settlement Status and Processing Advice	Advises the status of a settlement instruction or replies to a cancellation request
549	Request for Settlement/Status Advice	Requests a statement or a status message
558	Triparty Collateral Status and Processing Advice	Provides validation results and status advice re collateral instructions and proposed collateral movements
559	Paying Agent's Claim	Claims reimbursement of income or redemption proceeds, or a combination of both
564	Corporate Action Notification	Provides an account owner with details of a corporate action event and the choices available to the account owner. It also provides the account owner with details on the impact a corporate action event will have on a safekeeping or cash account, eg, entitlement calculation
565	Corporate Action Instruction	Instructs the custodian on the investment decision made by an account owner relative to a corporate action event
566	Corporate Action Confirmation	Confirms to the account owner that securities and/or cash have been credited/debited to an account as a result of a corporate action event
567	Corporate Action Status and Processing Advice	Indicates the status, or a change in status, of a corporate action-related transaction previously instructed by, or

		executed on behalf of, the account owner
568	Corporate Action Narrative	Provides complex instructions or narrative details relating to a corporate action event
569	Triparty Collateral and Exposure Statement	Provides the details of the valuation of both the collateral and the exposure
574	IRS 1441 NRA-IRS Beneficial Owners' List	Provides owner or pooled income information for a period of time arranged between the intermediary and the withholding agent
574	IRS 1441 NRA-Form W8-BEN	Certifies the foreign status of a beneficial owner for United States tax withholding

576	Statement of Open Orders	Provides details of orders to buy or to sell financial instruments, as at a specified date, which have been accepted by the Sender, but which have not yet been executed
577	Statement of Numbers	Provides certificates numbers of securities
578	Settlement Allegement	Advises the account owner that a counterparty has alleged a settlement instruction on the account owner's account
579	Certificate Numbers	Replaces or supplements the 'certificate numbers' field in a primary message, eg, MT 577
581	Collateral Adjustment Message	Claims or notifies a change in the amount of collateral held against securities out on loan or for other reasons
582	Reimbursements Claim or Advice	Claims reimbursement of funds paid on behalf of the Receiver or of securities received which are due to the Sender. It may also advise that funds and/or securities have or will be remitted by the Sender in favour of the Receiver
584	Statement of ETC Pending Trades	Provides statuses and details of executed trades which are not yet matched nor affirmed

586	Statement of Settlement Allegements	Provides details of pending settlement allegements
587	Depository Receipt Instruction	Instructs the issuance or release of a depository receipt from/to ordinary shares, or the conversion from one type of depository receipt to another
588	Depository Receipt Confirmation	Confirms the issuance or release of a depository receipt from/to ordinary shares, or the conversion from one type of depository receipt to another
589	Depository Receipt Status and Processing Advice	Advises the status, or change in status, of a depository receipt

### Category 6 – Treasury Markets – Precious Metals

MT	MT Name	Purpose
600	Precious Metal Trade Confirmation	Confirms the details of a precious metal trade and its settlement
601	Precious Metal Option Confirmation	Confirms the details of a precious metal option contract
604	Precious Metal Transfer/Delivery Order	Instructs the Receiver to transfer by book-entry, or physically deliver, a specified type and quantity of precious metal to a specified party
605	Precious Metal Notice to Receive	Notifies the Receiver of an impending book-entry transfer or physical delivery of a specified type and quantity of precious metal
606	Precious Metal Debit Advice	Advises the Receiver of a debit entry to a specified metal account
607	Precious Metal Credit Advice	Advises the Receiver of a credit entry to a specified metal account
608	Statement of a Metal Account	Provides the details of all bookings to a metal account
609	Statement of Metal Contracts	Identifies all outstanding metal contracts, as at a specified date for which confirmations have been exchanged

**Category 6 – Treasury Markets – Syndications**

<b>MT</b>	<b>MT Name</b>	<b>Purpose</b>
643	Notice of Drawdown/Renewal	Provides notice of the Borrower(s) request for drawdown(s)/renewal(s) on a given date
644	Advice of Rate and Amount Fixing	Specifies the interest rate and, if applicable, the exchange rate, for the next interest period
645	Notice of Fee Due	Specifies flat and variable fees, related to one Facility, due to the Receiver
646	Payment of Principal and/or of Interest	Advises of payments and/or prepayments of principal and/or of interest with the same value date, but not related to any subsequent drawing or renewal
649	General Syndicated Facility Message	Provides for communications related to syndicated facilities for which no specific message has been defined

**Category 7 – Documentary Credits & Guarantees**

<b>MT</b>	<b>MT Name</b>	<b>Purpose</b>
700	Issue of a Documentary Credit	Indicates the terms and conditions of a documentary credit
701	Issue of a Documentary Credit	Continuation of an MT 700 for fields 45a, 46a and 47a
705	Pre-Advice of a Documentary Credit	Provides brief advice of a documentary credit for which full details will follow
707	Amendment to a Documentary Credit	Informs the Receiver of amendments to the terms and conditions of a documentary credit
710	Advice of a Third Bank's Documentary Credit	Advises the Receiver of the terms and conditions of a documentary credit
711	Advice of a Third Bank's Documentary Credit	Continuation of an MT 710 for files 45a, 46a and 47a

720	Transfer of a Documentary Credit	Advises the transfer of a documentary credit, or part thereof, to the bank advising the second beneficiary
721	Transfer of a Documentary Credit	Continuation of a MT 720 for files 45a, 46a and 47a
730	Acknowledgement	Acknowledges the receipt of a documentary credit message and may indicate that the message has been forwarded according to instructions. It may also be used to account for bank charges or to advise of acceptance or rejection of an amendment of a documentary credit
732	Advice of Discharge	Advises that documents received with discrepancies have been taken up
734	Advice of Refusal	Advises the refusal of documents that are not in accordance with the terms and conditions of a documentary credit
740	Authorisation to Reimburse	Requests the Receiver to honour claims for reimbursement of payment(s) or negotiation(s) under a documentary credit
742	Re-imbusement Claim	Provides a reimbursement claim to the bank authorised to reimburse the Sender or its branch for its payments/negotiations
747	Amendment to an Authorisation to Reimburse	Informs the reimbursing bank of amendments to the terms and conditions of a documentary credit, relative to the authorisation to reimburse
750	Advice of Discrepancy	Advises of discrepancies and requests authorisation to honour documents presented that are not in accordance with the terms and conditions of the documentary credit
752	Authorisation to Pay, Accept or Negotiate	Advises a bank which has requested authorisation to pay, accept, negotiate or incur a deferred payment undertaking that the presentation of the documents may be honoured, notwithstanding the discrepancies, provided they are otherwise in order
754	Advice of Payment/Acceptance/Negotiations	Advises that documents have been presented in accordance with the terms of a documentary credit and

		are being forwarded as instructed. This message type also handles the payment/negotiation
756	Advice of Re-imburement or Payment	Advises of the reimbursement or payment for a drawing under a documentary credit in which no specific reimbursement instructions or payment provisions were given
760	Guarantee/Standby LC	Issues or requests the issue of a guarantee or Standby LC
767	Guarantee/ Standby LC Amendment	Amends a guarantee or Standby LC which has been previously issued or requests the amendment of a guarantee which the Sender has previously requested to be issued
768	Acknowledgement of a Guarantee/ Standby LC Message	Acknowledges the receipt of a guarantee/ Standby LC message and may indicate that action has been taken according to instructions
769	Advice of Reduction or Release	Advises that a bank has been released of its liability for a specified amount under its guarantee

### Category 8 – Travellers Cheques

MT	MT Name	Purpose
800	T/C Sales and Settlement Advice [Single]	Provides the sale and settlement details for the sale of travellers cheques by a single selling agent
801	T/C Multiple Sales Advice	Provides the details (excluding the settlement details) of the sales of travellers cheques in cases where the data is lengthy or includes data from several selling agents
802	T/C Settlement Advice	Provides the settlement details of multiple sales of travellers cheques
810	T/C Refund Request	Requests the issuer to honour a claim for a refund for lost or stolen travellers cheques. It may also request authorisation to refund

812	T/C Refund Authorisation	Authorises, denies or defers a full or partial refund for cheques which have been lost or stolen
813	T/C Refund Confirmation	Confirms and accounts for an authorised refund to a claimant. It may also indicate the amount to be reimbursed to the refund agent
820	Request for T/C Stock	Requests replenishment of the selling agent's travellers cheque stock
821	T/C Inventory Addition	Provides general information regarding a shipment of travellers cheques
822	Trust Receipt Acknowledgement	Acknowledges the receipt of a shipment of travellers cheques from the issuer
823	T/C Inventory Transfer	Advises the issuer of a transfer of specified travellers cheque stock from one selling agent to another

### Category 9 – Cash Management & Customer Status

MT	MT Name	Purpose
900	Confirmation of Debit	Advises an account owner of a debit to its account
910	Confirmation of Credit	Advises an account owner of a credit to its account
920	Request Message	Requests the account servicing institution to send an MT 940, 941, 942 or 950
935	Rate Change Advice	Advises the Receiver of general rate change(s) and/or rate change(s) which applies to a specific account other than a call/notice loan/deposit account
940	Customer Statement Message	Provides balance and transaction details of an account to a financial institution on behalf of the account owner

941	Balance Report	Provides balance information of an account to a financial institution on behalf of the account owner
942	Interim Transaction Report	Provides balance and transaction details of an account, for a specified period of time, to a financial institution on behalf of the account owner
950	Statement Message	Provides balance and transaction details of an account to the account owner
960	Request for Service Initiation Message	Initiates a Bilateral Key Exchange (BKE) process
961	Initiation Response Message	Acknowledges receipt of an MT 960
962	Key Service Message	Contains a bilateral authenticator key for another financial institution
963	Key Acknowledgement Message	Acknowledges receipt of the bilateral key sent in a previous MT 962
964	Error Message	Responds to an MT 960, 961, 963, 966 or 967 if an error has been detected to report that error
965	Error in Key Service Message	Responds to an MT 962 if an error has been detected and reports that error
966	Discontinue Service Message	Discontinues one or several bilateral authenticator keys already in existence between the Sender and Receiver
967	Discontinuation Acknowledgement Message	Acknowledges receipt of a previous MT 966 and confirms discontinuation of the authenticator key(s) specified in the MT 966
970	Netting Statement	Provides balance and transaction details of a netting position as recorded by a netting system
971	Netting Balance Report	Provides balance information for specified netting position(s)
972	Netting Interim Statement	Advises interim balance and transaction details of a netting position as recorded by a netting system
973	Netting Request Message	Requests an MT 971 or 972 containing the latest available information

985	Status Enquiry	Requests an MT 986
986	Status Report	Provides business related information about a customer or institution

### Category n – Common Group Messages

MT	MT Name	Purpose
n90	Advice of Charges, Interest and Other Adjustments	Advises an account owner of charges, interest or other adjustments to its account
n91	Request for Payment of Charges, Interest and Other Expenses	Requests payment of charges, interest or other expenses
n92	Request for Cancellation	Requests the Receiver to consider cancellation of the message identified in the request
n95	Queries	Requests information relating to a previous message or amendment to a previous message
n96	Answers	Responds to an MT n95 Queries or MT n92 Request for Cancellation or other messages where no specific message type has been provided for the response
n98	Proprietary Message	Contains formats defined and agreed to between users and for those messages not yet live
n99	Free Format Message	Contains information for which no other message type has been defined

## SWIFT Standards MX

The SWIFT Standards MX messages are listed according to the business area in which they have been defined.

### Account Management

MX Identifier	MX Name	Purpose
acmt.001.001.02	AccountOpeningInstructionV02	The AccountOpeningInstructionV02 message instructs the opening of an account or the opening of an account and establishing an investment plan.
acmt.002.001.02	AccountDetailsConfirmationV02	The AccountDetailsConfirmationV02 message confirms the opening of an account, modification of an account or the provision of information requested in a previously sent GetAccountDetails message.
acmt.003.001.02	AccountModificationInstructionV02	The AccountModificationInstructionV02 message instructs the modification of an existing account.
acmt.004.001.02	GetAccountDetailsV02	The GetAccountDetailsV02 message requests some or all details of a specific account.
acmt.005.001.02	RequestForAccountManagementStatusReportV02	The RequestForAccountManagementStatusReportV02 message requests the status of an AccountOpeningInstruction or an AccountModificationInstruction message.
acmt.006.001.02	AccountManagementStatusReportV02	The AccountManagementStatusReportV02 message provides the processing status of a previously received AccountOpeningInstruction or of an AccountModificationInstruction message.

### Administration

MX Identifier	MX Name	Purpose
---------------	---------	---------

admi.001.001.01	ReportV01	The ReportV01 message is used for general application level data reporting. A message may contain either a full report or one single tranche (part) of a report split in multi-tranches (multi-parts). The message contains a mechanism to support the correct reassembling of the reporting data by an application.
admi.002.001.01	MessageRejectV01	The MessageRejectV01 message is sent by a central system to notify the rejection of a previously received message. It provides specific information about the rejection reason.
admi.004.001.01	SystemEventNotificationV01	The SystemEventNotificationV01 message is sent by a central system to notify the occurrence of an event in a central system.

### Cash Management

MX Identifier	MX Name	Purpose
camt.003.001.03	GetAccountV03	The GetAccountV03 message is sent by a member to the transaction administrator. It requests information on the details of one or more accounts held at the transaction administrator, including information on the balances.
camt.004.001.03	ReturnAccountV03	The ReturnAccountV03 message is sent by a member to the transaction administrator. It provides information on the details of one or more accounts held at the transaction administrator, including information on the balances. The ReturnAccount message can be sent as a response to a related GetAccount message (pull mode) or initiated by the transaction administrator (push mode). The push of information can take place either at prearranged times or as a warning or alarm when a problem has occurred.
camt.005.001.03	GetTransactionV03	The GetTransactionV03 message is sent by a member to the transaction administrator. It requests information about payment instructions held at the transaction administrator.

		Payment instructions are either sent by the member, debiting or crediting its account at the transaction administrator or received by the transaction administrator, crediting or debiting the member's account.
camt.006.001.02	ReturnTransactionV03	The ReturnTransactionV03 message is sent by the transaction administrator to a member of the system. It provides information on transactions and booked entries held at the transaction administrator. The ReturnTransactionV03 message can be sent as a response to a related GetTransaction message (pull mode) or initiated by the transaction administrator (push mode). The push of information can take place either at prearranged times or as a warning or alarm when a problem has occurred.
camt.007.001.02	ModifyTransactionV03	The ModifyTransactionV03 message is sent by a member to the transaction administrator. It requests one modification in one payment instruction held at the transaction administrator and sent by the member, debiting or crediting its account at the transaction administrator.
camt.007.002.02	RequestToModifyPaymentV02	The RequestToModifyPaymentV02 message is sent by a case creator/case assigner to a case assignee. It requests the modification of characteristics of an original payment instruction.
camt.008.001.03	CancelTransactionV03	The CancelTransactionV03 message is sent by a member to the transaction administrator. It requests the cancellation of one payment instruction held at the transaction administrator and sent by the member.
camt.008.002.02	RequestToCancelPayment02	The RequestToCancelPaymentV02 message is sent by a case creator/case assigner to a case assignee. It requests the cancellation of an original payment instruction.
camt.009.001.03	GetLimitV03	The GetLimitV03 message is sent by a member to the transaction administrator. It requests information on the details of one or more limits set by the member (or on behalf of the member) and managed by the transaction administrator.

camt.010.001.03	ReturnLimitV03	The ReturnLimitV03 message is sent by the transaction administrator to a member of the system. It provides information on the details of one or more limits set by the member (or on behalf of the member) and managed by the transaction administrator. The ReturnLimit message can be sent as a response to a related GetLimit message (pull mode) or initiated by the transaction administrator (push mode). The push of information can take place either at prearranged times or as a warning or alarm when a problem has occurred.
camt.011.001.03	ModifyLimitV03	The ModifyLimitV03 message is sent by a member to the transaction administrator. It requests modifications in the details of one particular limit set by the member and managed by the transaction administrator. Each ModifyLimit message can alter only one type of limit (current or default).
camt.012.001.03	DeleteLimitV03	The DeleteLimitV03 message is sent by a member to the transaction administrator. It requests the deletion of one particular limit set by the member and managed by the transaction administrator. Each DeleteLimit message can only delete one type of current limit (risk or liquidity management limit).
camt.013.001.01	GetMemberV01	The GetMemberV01 message is sent by a member to the transaction administrator. It requests information on static data maintained by the transaction administrator and related to the participants in the system and their membership status vis-à-vis this system.
camt.014.001.01	ReturnMemberV01	The ReturnMemberV01 message is sent by the transaction administrator to a member of the system. It provides information on static data maintained by the transaction administrator and related to the participants in the system and their membership status vis-à-vis this system. The ReturnMember message can be sent as a response to a related GetMember message (pull mode) or initiated by the transaction administrator (push mode). The push of information can take place either at prearranged times or as

		a warning or alarm when a problem has occurred.
camt.015.001.01	ModifyMemberV01	The ModifyMemberV01 message is sent by a member to the transaction administrator. It requests modifications to the static data related to the profile of a member that the transaction administrator maintains.
camt.016.001.01	GetCurrencyExchangeRateV01	The GetCurrencyExchangeRateV01 message is sent by a member to the transaction administrator. It requests information on static data maintained by the transaction administrator and related to currency exchange details as maintained for the system operations by the transaction administrator.
camt.017.001.01	ReturnCurrencyExchangeRateV01	The ReturnCurrencyExchangeRateV01 message is sent by the transaction administrator to a member of the system. It provides information on static data and related to currency exchange details as maintained for system operations by the transaction administrator. The ReturnCurrencyExchangeRate message can be sent as a response to a related GetCurrencyExchangeRate message (pull mode) or initiated by the account servicer (push mode). The push of information can take place either at prearranged times or as a warning or alarm when a problem has occurred.
camt.018.001.01	GetBusinessDayInformationV01	The GetBusinessDayInformationV01 message is sent by a member to the transaction administrator. It requests information on different types of administrative data linked to the system.
camt.019.001.02	ReturnBusinessDayInformationV02	The ReturnBusinessDayInformationV02 message is sent by the transaction administrator to a member of the system. It provides information on different types of administrative data linked to the system. The ReturnBusinessDayInformation message can be sent as a response to a related GetBusinessDayInformation message (pull mode), or initiated by the transaction administrator (push mode). The push of information can take place either at prearranged times or as a warning or alarm when a problem has

		occurred.
camt.020.001.01	GetGeneralBusinessInformationV01	The GetGeneralBusinessInformationV01 message is sent by a member to the transaction administrator. It requests information on a broadcast-type message previously sent by the transaction administrator to all or some of the members, giving information related to the processing business.
camt.021.001.01	ReturnGeneralBusinessInformationV01	The ReturnGeneralBusinessInformationV01 message is sent by the transaction administrator to a member of the system. It provides some or all of the members with information related to the processing of the system. The ReturnGeneralBusinessInformation message can be sent as a response to a related GetGeneralBusinessInformation message (pull mode) or initiated by the transaction administrator (push mode). The push of information can take place either at prearranged times or as a warning or alarm when a problem has occurred.
camt.023.001.02	BackupPaymentV02	The BackupPaymentV02 message is sent by a member to the transaction administrator. It requests a liquidity transfer from the member to another participant in the system when the user is in recovery mode.
camt.024.001.02	ModifyStandingOrderV02	The ModifyStandingOrderV02 message is sent by a member to the transaction administrator. It requests a change in the features of a permanent order for the transfer of funds between two accounts belonging to the same member and being held at the transaction administrator.
camt.025.001.01	ReceiptV01	The ReceiptV02 message is sent by the transaction administrator to a member of the system. It acknowledges the receipt of a message previously sent. The Receipt message is an application receipt acknowledgement and conveys information about the processing of the original message.
camt.026.001.02	UnableToApplyV02	The UnableToApplyV02 message is sent by a case creator/case assigner to a case assignee. It initiates an investigation of a payment instruction that cannot be

		executed or reconciled.
camt.027.001.02	ClaimNonReceiptV02	The ClaimNonReceiptV02 message is sent by a case creator/case assigner to a case assignee. It initiates an investigation for missing funds at the creditor (missing credit entry to its account) or at an agent along the processing chain (missing cover for a received payment instruction).
camt.028.001.02	AdditionalPaymentInformationV02	The AdditionalPaymentInformationV02 message is sent by an account servicing institution to an account owner. It provides additional or corrected information on a payment instruction or statement entry, in order to allow reconciliation.
camt.029.001.02	ResolutionOfInvestigationV02	The ResolutionOfInvestigationV02 message is sent by a case assignee to a case creator/case assigner. It informs of the resolution of a case, and optionally provides details about the corrective action undertaken by the case assignee.
camt.030.001.02	NotificationOfCaseAssignmentV02	The NotificationOfCaseAssignmentV02 message is sent by a case assignee to a case creator/case assigner. It informs the case assigner of further action that is undertaken by the case assignee to process the case, eg, the assignment of the case to a next case assignee.
camt.031.001.02	RejectCaseAssignmentV02	The RejectCaseAssignmentV02 message is sent by a case assignee to a case creator/case assigner. It is used to reject a case.
camt.032.001.01	CancelCaseAssignment	The CancelCaseAssignment message is sent by a case creator/case assigner to a case assignee. It requests the cancellation of a case.
camt.033.001.02	RequestForDuplicateInstructionV02	The RequestForDuplicateInstructionV02 message is sent by the case assignee to the case creator/case assigner. It requests a copy of the original payment instruction considered in the case.
camt.034.001.02	DuplicateInstructionV02	The DuplicateInstructionV02 message is used by financial institutions, with their own offices, and/or with other financial institutions with which they have established bilateral

		agreements. It allows the exchange of duplicate payment instructions.
camt.035.001.01	ProprietaryFormatInvestigation	The ProprietaryFormatInvestigation message is used by financial institutions, with their own offices, and/or with other financial institutions with which they have established bilateral agreements. It is used as an envelope for a non standard message. It provides means to manage an exception or investigation which falls outside the scope or capability of any other formatted message. It also allows financial institutions to use message types which are awaiting live implementation in the Exceptions & Investigations solution
camt.036.001.01	DebitAuthorisationResponse	The DebitAuthorisationResponse message is sent by an account owner to its account servicing institution. It is used to approve or reject a debit authorisation request.
camt.037.001.02	DebitAuthorisationRequestV02	The DebitAuthorisationRequestV02 message is sent by an account servicing institution to an account owner. It requests authorisation to debit an account.
camt.038.001.01	CaseStatusReportRequest	The CaseStatusReportRequest message is sent by a case creator/case assigner to a case assignee. It requests the status of a case.
camt.039.001.02	CaseStatusReportV02	The CaseStatusReportV02 message is sent by a case assignee to a case creator/case assigner. It reports on the status of a case.
camt.040.001.03	FundEstimatedCashForecastReportV03	The FundEstimatedCashForecastReportV03 message reports the estimated cash incomings and outgoings of one or more investment funds on one or more trade dates.
camt.041.001.03	FundConfirmedCashForecastReportV03	The FundConfirmedCashForecastReportV03 message confirms the cash incomings and outgoings of one or more investment funds on one or more trade dates.
camt.042.001.03	FundDetailedEstimatedCashForecastReportV03	The FundDetailedEstimatedCashForecastReportV03 message reports the estimated cash incomings and

		outgoings, sorted by criteria defined by the user of one or more investment funds on one or more trade dates.
camt.043.001.03	FundDetailedConfirmedCashForecastReportV03	The FundDetailedConfirmedCashForecastReportV03 message reports the cash incomings and outgoings, sorted by criteria defined by the user of one or more investment funds on one or more trade dates.
camt.044.001.02	FundConfirmedCashForecastReportCancellationV02	The FundConfirmedCashForecastReportCancellationV02 message cancels a previously sent FundConfirmedCashForecastReport message.
camt.045.001.02	FundDetailedConfirmedCashForecastReportCancellationV02	The FundDetailedConfirmedCashForecastReportCancellationV02 message cancels a previously sent FundDetailedConfirmedCashForecastReport message.
camt.046.001.01	GetReservationV01	The GetReservationV01 message is sent by a member to the transaction administrator. It requests information on the details of one or more reservation facilities set by the member and managed by the transaction administrator.
camt.047.001.01	ReturnReservationV01	The ReturnReservationV01 message is sent by a member to the transaction administrator. It provides information on the details of one or more reservation facilities set by the member and managed by the transaction administrator. The ReturnReservation message can be sent as a response to a related GetReservation message (pull mode) or initiated by the transaction administrator (push mode). The push of information can take place either at prearranged times or as a warning or alarm when a problem has occurred.
camt.048.001.01	ModifyReservationV01	The ModifyReservationV01 message is sent by a member to the transaction administrator. It requests a modification of details of one or more reservation facilities set by the member and managed by the transaction administrator.
camt.049.001.01	DeleteReservationV01	The DeleteReservationV01 message is sent by a member to the transaction administrator. It requests a deletion of one or more reservation facilities set by the member and managed by the transaction administrator.

camt.050.001.01	LiquidityCreditTransferV01	The LiquidityCreditTransferV01 message is sent by a member to the transaction administrator. It requests a transfer of funds between two accounts belonging to the same member or the same group of accounts, and being held at the transaction administrator.
camt.051.001.01	LiquidityDebitTransferV01	The LiquidityDebitTransferV01 message is sent by a member to the transaction administrator. It requests a transfer of funds between two accounts belonging to the same member or the same group of accounts, and being held at the transaction administrator.
camt.052.001.01	BankToCustomerAccountReportV01	The Bank-to-CustomerAccountReportV01 message is sent by the account servicer to an account owner or to a party authorised by the account owner to receive the message. It can be used to inform the account owner, or authorised party, of the entries reported to the account, and/or to provide the owner with balance information on the account at a given point in time.
camt.053.001.01	BankToCustomerStatementV01	The Bank-to-CustomerStatementmessagV01e is sent by the account servicer to an account owner or to a party authorised by the account owner to receive the message. It is used to inform the account owner, or authorised party, of the entries booked to the account, and to provide the owner with balance information on the account at a given point in time.
camt.054.001.01	BankToCustomerDebitCreditNotificationV01	The Bank-to-CustomerDebitCreditNotificationV01 message is sent by the account servicer to an account owner or to a party authorised by the account owner to receive the message. It can be used to inform the account owner, or authorised party, of single or multiple debit and/or credit entries reported to the account.

## Derivatives

defp.001.001.01	ContractCreated	The ContractCreated notification message indicates that a
-----------------	-----------------	-----------------------------------------------------------

		contract has been created at the allocation level (see <a href="http://www.fpml.org/spec/2006/tr-fpml-4-2-2006-12-15/">http://www.fpml.org/spec/2006/tr-fpml-4-2-2006-12-15/</a> ).

setr.012.001.03	SubscriptionOrderConfirmation V03	The SubscriptionOrderConfirmationV03 message confirms the execution of a previously received SubscriptionOrder message. The message may confirm the execution of one, many or all subscription orders contained in a previously received SubscriptionOrder message.
setr.013.001.03	SwitchOrder V03	The SwitchOrderV03 message instructs a switch transaction from a financial instrument or multiple financial instruments to a different specified financial instrument or instruments for a specified amount/quantity.
setr.014.001.03	SwitchOrderCancellation RequestV03	The SwitchOrderCancellationRequestV03 message requests the cancellation of a previously sent SwitchOrder message. The message may request the cancellation of one, many or all switch orders contained in a previously sent SwitchOrder message.
setr.015.001.03	SwitchOrderConfirmationV03	The SwitchOrderConfirmationV03 message confirms the execution of a previously received SwitchOrder message. The message may confirm the execution of one, many or all switch orders contained in a previously received SwitchOrder message.
setr.016.001.03	OrderInstructionStatusReportV03	The OrderInstructionStatusReportV03 message reports the status of a subscription, redemption or switch order prior to execution.
setr.017.001.03	OrderCancellationStatusReportV03	The OrderCancellationStatusReportV03 message reports the status of an order cancellation request that was previously received.
setr.018.001.03	RequestForOrderStatusReportV03	The RequestForOrderStatusReportV03 message

		requests the status of one or more order instruction or order cancellation request messages.
setr.047.001.01	SubscriptionOrderConfirmationCancellationInstructionV01	The SubscriptionOrderConfirmationCancellationInstructionV01 message cancels one or more previously sent subscription order confirmations.
setr.048.001.01	SubscriptionOrderConfirmationAmendmentV01	The SubscriptionOrderConfirmationAmendmentV01 message amends a previously sent SubscriptionOrderConfirmation message.
setr.049.001.01	SubscriptionBulkOrderConfirmationCancellationInstructionV01	The SubscriptionBulkOrderConfirmationCancellationInstructionV01 message cancels one or more previously sent subscription order confirmations.
setr.050.001.01	SubscriptionBulkOrderConfirmationAmendmentV01	The SubscriptionBulkOrderConfirmationAmendmentV01 message amends a previously sent SubscriptionBulkOrderConfirmation message.
setr.051.001.01	RedemptionOrderConfirmationCancellationInstructionV01	The RedemptionOrderConfirmationCancellationInstructionV01 message cancels one or more previously sent redemption order confirmations.
setr.052.001.01	RedemptionOrderConfirmationAmendmentV01	The RedemptionOrderConfirmationAmendmentV01 message amends a previously sent RedemptionOrderConfirmation message.
setr.053.001.01	RedemptionBulkOrderConfirmationCancellationInstructionV01	The RedemptionBulkOrderConfirmationCancellationInstructionV01 message cancels a previously sent RedemptionBulkOrderConfirmation. The message may be used to cancel one, many or all redemption order confirmations contained in a previously sent RedemptionBulkOrderConfirmation message.
setr.054.001.01	RedemptionBulkOrderConfirmationAmendmentV01	The RedemptionBulkOrderConfirmationAmendmentV01 message amends a previously sent RedemptionBulkOrderConfirmation message.
setr.055.001.01	SwitchOrderConfirmationCancellationInstructionV01	The SwitchOrderConfirmationCancellationInstructionV01 message cancels one or more previously sent switch order confirmations.
setr.056.001.01	SwitchOrderConfirmationAmendmentV01	The SwitchOrderConfirmationAmendmentV01 message

		amends a previously sent SwitchOrderConfirmation message.
setr.057.001.01	OrderConfirmationStatusReportV01	The OrderConfirmationStatusReportV01 message reports the status of an order confirmation or an order confirmation amendment.
setr.058.001.01	RequestForOrderConfirmationStatusReportV01	The RequestForOrderConfirmationStatusReportV01 message requests the status of one or several order confirmations.

### Trade Services Management

MX Identifier	MX Name	Purpose
tsmt.001.001.02	AcknowledgementV02	The AcknowledgementV02 message is sent by the matching application to the party from which it received a message. It acknowledges the receipt of a message by the matching application.
tsmt.002.001.02	ActivityReportV02	The ActivityReportV02 message is sent by the matching application to the requester of an activity report. It reports on all transactions for which an activity has taken place within a given time span.
tsmt.003.001.02	ActivityReportRequestV02	The ActivityReportRequestV02 message is sent by either party involved in a transaction to the matching application. It requests a report on all transactions for which an activity has taken place within a given time span.
tsmt.004.001.01	ActivityReportSetUpRequest	The ActivityReportSetUpRequest message is sent by either party involved in a transaction to the matching application. It requests the reset of the pre-determined time at which an activity report is generated.
tsmt.005.001.01	AmendmentAcceptance	The AmendmentAcceptance message is sent by the party requested to accept or reject an amendment to the matching application. It accepts an amendment request.
tsmt.006.001.02	AmendmentAcceptanceNotificationV02	The AmendmentAcceptanceNotificationV02 message is sent by the matching application to the requester of an amendment. It notifies the acceptance of an amendment request.

tsmt.007.001.01	AmendmentRejection	The AmendmentRejection message is sent by the party requested to accept or reject an amendment to the matching application. It rejects an amendment request.
tsmt.008.001.02	AmendmentRejectionNotificationV02	The AmendmentRejectionNotificationV02 message is sent by the matching application to the requester of an amendment. It notifies the rejection of an amendment request.
tsmt.009.001.02	BaselineAmendmentRequestV02	The BaselineAmendmentRequestV02message is sent by either party involved in a transaction to the matching application. It requests the amendment of an established baseline.
tsmt.010.001.02	BaselineMatchReportV02	The BaselineMatchReportV02 message is sent by the matching application to the parties involved in the establishment of a transaction. It informs about either the successful establishment of a transaction (baseline) or the mis-matches found between two baseline initiation messages (InitialBaselineSubmission message, BaselineReSubmission message).
tsmt.011.001.02	BaselineReportV02	The BaselineReportV02 message is sent by the matching application to the parties involved in an amendment request or to the parties involved in a data set match. It reports either a pre-calculation or final calculation of the dynamic part of an established baseline.
tsmt.012.001.02	BaselineReSubmissionV02	The BaselineReSubmissionV02 message is sent by either the counterparty or the initiator of a transaction (baseline) to the matching application. It is used by the counterparty to respond on the registration of a <i>push-through</i> transaction in the matching application or by the initiator or counterparty to re-send earlier mis-matched baseline information.
tsmt.013.001.02	DateSetMatchReportV02	The DataSetMatchReportV02 message is sent by the matching application to the parties involved in a data set match. It either informs about the successful match of

		data sets submitted with the instruction <i>match</i> or <i>pre-match</i> (DataSetSubmission message) and the related baseline, or it informs about mis-matches found between data sets submitted with the instruction <i>match</i> or <i>pre-match</i> (DataSetSubmission message) and the related baseline.
tsmt.014.001.02	DataSetSubmissionV02	The DataSetSubmissionV02 message is sent by either party involved in the transaction to the matching application. It triggers either a match or a pre-match of the information submitted with the message.
tsmt.015.001.02	DeltaReportV02	The DeltaReportV02 message is sent by the matching application to the parties involved in the request of a baseline amendment. It lists the differences between the established and the newly proposed baseline.
tsmt.016.001.02	ErrorReportV02	The ErrorReportV02 message is sent by the matching application to the party from which it received a message. It informs about the inability of the matching application to process a received message.
tsmt.017.001.02	ForwardDataSetSubmissionReportV02	The ForwardDataSetSubmissionReportV02 message is sent by the matching application to the counterparty of the submitter of data sets. It passes on information related to the purchasing agreement(s) covered by the transaction(s) referred to in the message.
tsmt.018.001.02	FullPushThroughReportV02	The FullPushThroughReportV02 message is sent by the matching application to either party involved in a transaction. It passes on information that the matching application has received from either party. The forwarded information can originate from an InitialBaselineSubmission or BaselineReSubmission or BaselineAmendmentRequest message.
tsmt.019.001.02	InitialBaselineSubmissionV02	The InitialBaselineSubmissionV02 message is sent by the initiator of a transaction to the matching application. It initiates a transaction.

tsmt.020.001.01	MisMatchAcceptance	The MisMatchAcceptance message is sent by the party requested to accept or reject data set mis-matches to the matching application. It accepts mis-matches between data sets and the related baseline.
tsmt.021.001.02	MisMatchAcceptanceNotificationV02	The MisMatchAcceptanceNotificationV02 message is sent by the matching application to the submitter of mis-matched data sets. It notifies the acceptance of mis-matched data sets.
tsmt.022.001.01	MisMatchRejection	The MisMatchRejection message is sent by the party requested to accept or reject data set mis-matches to the matching application. It rejects mis-matches between data sets and the related baseline.
tsmt.023.001.02	MisMatchRejectionNotificationV02	The MisMatchRejectionNotificationV02 message is sent by the matching application to the submitter of mis-matched data sets. It notifies the rejection of mis-matched data sets.
tsmt.024.001.02	ActionReminderV02	The ActionReminderV02 message is sent by the matching application to either party involved in a transaction that it is expecting to take an action. It reminds a party of an action that it is expected to take.
tsmt.025.001.02	StatusChangeNotificationV02	The StatusChangeNotificationV02 message is sent by the matching application to the parties involved in the change of the status of a transaction. It informs about the change of a status.
tsmt.026.001.01	StatusChangeRequest	The StatusChangeRequest message is sent by either party involved in a transaction to the matching application. It requests a change in the status of a transaction.
tsmt.027.001.01	StatusChangeRequestAcceptance	The StatusChangeRequestAcceptance message is sent by the party requested to accept or reject the request of a change in the status of a transaction to the matching application. It informs about the acceptance of a request

		to change the status of a transaction.
tsmt.028.001.02	StatusChangeRequestNotificationV02	The StatusChangeRequestNotificationV02 message is sent by the matching application to the party requested to accept or reject the request of a change in the status of a transaction. It notifies the request of a change in the status of a transaction.
tsmt.029.001.01	StatusChangeRequestRejection	The StatusChangeRequestRejection message is sent by the party requested to accept or reject the request of a change in the status of a transaction to the matching application. It informs about the rejection of a request to change the status of a transaction.
tsmt.030.001.02	StatusChangeRequestRejectionNotificationV02	The StatusChangeRequestRejectionNotificationV02 message is sent by the matching application to the submitter of a request to change the status of a transaction. It informs about the rejection of a request to change the status of a transaction.
tsmt.031.001.02	StatusExtensionAcceptanceV02	The StatusExtensionAcceptanceV02 message is sent by the party requested to accept or reject a request to extend the status of a transaction to the matching application. It informs about the acceptance of a request to extend the status of a transaction.
tsmt.032.001.02	StatusExtensionNotificationV02	The StatusExtensionNotificationV02 message is sent by the matching application to the parties involved in a request to extend the status of a transaction. It informs about the acceptance of a request to extend the status of a transaction.
tsmt.033.001.02	StatusExtensionRejectionV02	The StatusExtensionRejectionV02 message is sent by the party requested to accept or reject a request to extend the status of a transaction to the matching application. It informs about the rejection of a request to extend the status of a transaction.
tsmt.034.001.02	StatusExtensionRejectionNotificationV02	The StatusExtensionRejectionNotificationV02 message is sent by the matching application to the submitter of a

		request to extend the status of a transaction. It informs about the rejection of a request to extend the status of a transaction.
tsmt.035.001.02	StatusExtensionRequestV02	The StatusExtensionRequestV02 message is sent by either party involved in a transaction to the matching application. It requests the extension of the status of a transaction.
tsmt.036.001.02	StatusExtensionRequestNotificationV02	The StatusExtensionRequestNotificationV02 message is sent by the matching application to the party requested to accept or reject a request to extend the status of a transaction. It notifies the request to extend the status of a transaction.
tsmt.037.001.02	StatusReportV02	The StatusReportV02 message is sent by the matching application to the requester of a status report. It reports on the status of transactions registered in the matching application.
tsmt.038.001.02	StatusReportRequestV02	The StatusReportRequestV02 message is sent by either party involved in a transaction to the matching application. It reports on the status of transactions registered in the matching application.
tsmt.039.001.02	StoreDataSetRequestV02	The StoreDataSetRequestV02 message is sent by the party specified in the baseline as data set submitter to the matching application. It requests the storage of data set(s) by the matching application.
tsmt.040.001.02	TimeOutNotificationV02	The TimeOutNotificationV02 message is sent by the matching application to the parties involved in a transaction. It informs that a transaction will be closed within a given span of time if no action is taken by either party.
tsmt.041.001.02	TransactionReportV02	The TransactionReportV02 message is sent by the matching application to the requester of a transaction report. It reports on various details of transactions registered in the matching application.

---

tsmt.042.001.02

TransactionReportRequestV02

The TransactionReportRequestV02 message is sent by either party involved in a transaction to the matching application. It reports on details of transactions registered in the matching application.
